

The chemical free e-clear technology combines two natural water disinfecting processes

1. Patented 'Advanced Oxidation Process'

Metal coated Titanium Anodes within the Oxygen Chamber Catalyze the Production of Powerful **Oxidizers/Disinfecting Molecules** from the Water Molecule Itself

2. Electronic Copper Ionization

Developed by NASA for drinking water sanitation - Produces Cu^{2+} in its natural form - Most effective, natural bactericide, fungicide and algacide known to mankind - Pool water is maintained at a 0.5PPM residual (below the 2PPM level stipulated by the EC 98/83 Directive for drinking water).

Health Benefits of Copper:

- Essential trace nutrient for all higher plant and animal life
- Essential for healthy skin, hair, bones and metabolism.
- Stimulates hair follicles and promotes hair growth.
- Strengthens, repairs and protects arteries, veins, nerve fibers and immune system and prevents arthritis.
- Co-factor for many essential enzymes
- Not absorbed through the skin

REF: Murray, F. (1989). Copper essential for healthy skin and hair. Better Nutrition (1989-90).

Most effective, non-toxic protection for individuals against bacteria, viruses and waterborne pathogens. Complies with World Health Org., EC, US & British Directives for Public Pools.

PURE – FRESH – HEALTHY – OXYGEN TECHNOLOGY

- **ECO Friendly**
- **Crystal Clear Healthy Water**
- **Chemical Free**
- **No Carcinogenic Disinfection Byproducts**
- **Hassle Free & Easy to Maintain**
- **Automated & Self-cleaning**
- **Cost Effective**
- **Water Wise**
